

Laser Engravable Elastomer Flexo Printing Plate

DLE Laser Engravable | EPDM Rubber Surface | Water & Solvent Based Inks

PRODUCT FEATURES

- Laser resolution up to 5080 dpi provides maximum edge sharpness
- Overall dimensional stability
- Sharp print-quality & Improved ink laydown
- Suitable for solvent & water colors | UV & EB inks | 2K white & varnishes
- Reduced plate swelling
- Durable offers longlife, reusable
- Solvent resistant construction and reduced swelling
- Suitable for food packaging
- Fast and easy cleaning after engraving

TECHNICAL SPECIFICATION

Surface (Rubber / Polymer)	Rubber (EPDM)
Micro-Hardness	65°/70°
Thickness (Tolerance +/- 0.03mm)	1.14mm (0.045") 1.70mm (0.067") 2.54mm (0.100") 2.84mm (0.112")
Roll width	1080mm (42 1/2") 1320mm (52") 1480mm (58 1/4") 1560mm (61 1/2")
Roll length	30m / 50m
Carrier (Polyester PET / Fabric)	Polyester PET (0.19mm)
